EDGARDO ALEJANDRO GALDÁMEZ VELÁSQUEZ

UNITY DEVELOPER

San Salvador, El Salvador | +503 7900-5616 | gardo93g@gmail.com
gardo93g.github.io | LinkedIn | GitHub

SUMMARY

Unity developer with 5+ years in mobile games. Most recently built UI and gameplay features for Domino Delights (iOS/Android, 4,000+ levels, 16 languages) at Harmony Games.

SKILLS

Unity, C#, uGUI, UI Toolkit, DOTween, Addressables, Firebase, Unity Profiler, Git, Figma, Unreal Engine 4, Blender

EXPERIENCE

Harmony Games | Unity Engineer **Apr 2023 - Oct 2025**
Remote - United States · Domino Delights (App Store · Google Play)

- Built the in-game UI for Domino Delights: HUD, menus, pop-ups, progression and event screens.
- Built the Domino Adventures minigame end to end, from prototype to release.
- Wrote a pop-up queue that stopped rewards and animations from overlapping.
- Set up the team's Figma-to-Unity workflow and UI standards.
- Connected screens to Firebase, Remote Config and analytics for live events.
- Fixed production crashes found through Crashlytics.

Kubiak LLC | Mobile Game Developer **Dec 2020 - Feb 2023**
Remote - United States

- Delivered three playable mobile prototypes in six weeks.
- Built reusable UI and gameplay code shared across prototypes.
- Removed frame-time spikes on low-end devices through profiling, sprite atlases and batching.

TreeCloud Technologies | Game Developer Intern **Oct 2019 - Jan 2020**
San Salvador, El Salvador

- Built Unreal Engine 4 prototypes with Kinect input, drone navigation and LiDAR visualization.

OFBOX | Junior Software Developer **Oct 2017 - Oct 2019**
San Salvador, El Salvador

- Built internal C#/.NET tools and fixed bugs in production business software.

EDUCATION

Computer Science Degree | Universidad Centroamericana José Simeón Cañas (UCA), El Salvador
